## 2024 Ontario Potato Field Day

The 2024 Ontario Potato Field Day will be held on Thursday August 22nd. See the flyer below for more details.

Mark your calendars!

2024

Ontario Potato Field Day

Thursday, August 22

HJV Equipment

5900 Cty Rd 10

Alliston

Starts at

3pm

Display of new, innovative potato equipment,  
new processing & table varieties, Trade Show

5:30pm BBQ. Sponsored by Syngenta

Contacts: [eugeniabanks@onpotato.ca](mailto:eugeniabanks@onpotato.ca)

Katie Cloutier HJV: 705-435-3226 x200

### "In This Issue"

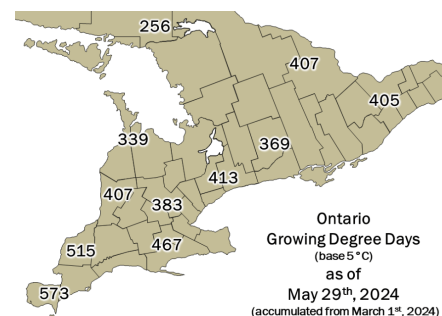

- ♦ 2024 Ontario Potato Field Day
- ♦ VCR – Vegetable Crop Report – May 30th, 2024

## VCR – Vegetable Crop Report – May 30th, 2024

The VCR (vegetable crop report) is a weekly update which includes crop updates, weather and growing degree summaries for various vegetable growing regions across Ontario.

### Crop Updates

**Carrots** – Carrot weevils are active and laying eggs in early-seeded fields.

## VCR – Vegetable Crop Report – May 30th, 2024...con't

**Potatoes** – Planting is nearing completion with around 90% of the acres planted. If the weather cooperates, most growers are hoping to be finished planting the remaining fields by early-mid next week. For most of the province, any emergence issues will be starting to show. New for 2024 we have updated the Ontario Crop IPM(<https://cropipm.omafra.gov.on.ca/en-ca/crops/potatoes/overview>) to make it easier for you to identify problems in your crop. Not sure what an issue is? Use the identify tab(<https://cropipm.omafra.gov.on.ca/en-ca/crops/potatoes/identify>) to scroll and filter through pictures to narrow down any potential problems.

Potato Scout training is next Wednesday with both in-person and virtual spots available.

Weekly plug to participate in our soft rot/blackleg survey: Potato Bacterial Soft Rot Survey – ONvegetables(<https://onvegetables.com/2024/05/02/potato-bacterial-soft-rot-survey/>)

**Rutabaga** – The 1<sup>st</sup> generation of cabbage maggot should at least be emerging now and in some regions damage will be showing up. In addition to Verimark at-planting, for 2024 growers will have 2 other products to use against cabbage maggot. These products are available through Emergency Use Registration and more details on rate, timing, max apps etc. can be found here: Cimegra® and Success® Insecticide labels temporarily expanded via Emergency Use Registration – ONvegetables(<https://onvegetables.com/2024/05/27/cimegra-and-success-insecticide-labels-temporarily-expanded-via-emergency-use-registration-to-help-manage-cabbage-maggot-in-rutabagas-grown-in-ontario-and-specified-provinces/>)

### Pest Degree Day Forecasting
