Potato Webinar: Identification of Common Diseases of Potato

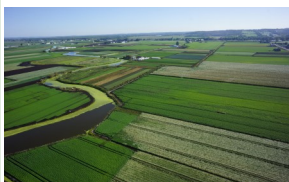

Potato growers' goal is to have accurate information of potential development of diseases in each of their fields. This can be accomplished with regular field monitoring.

Join Jeff Miller of Miller Research for this [free webinar](#) on March 29th that will outline the common foliar diseases of potatoes that occur from emergence to top killing including:

- Correct identification of potato diseases
- Early detection of diseases and where are most likely to occur
- How to distinguish the most common foliar diseases from their look-alike disorders.

2022 Muck Vegetable Growers Conference

The 2022 Muck Conference will be virtual and held on Wednesday April 6 (carrots) and Thursday April 7 (onions) from 12:30 to 3:30. See the agenda and list of speakers below.

Details to join:
