It only takes take two minutes to complete the form to send a letter.

We want all MPs to know the importance of Canada's domestic food industry. We encourage you to please share the link and information with all of farmers and contacts within the agriculture community. Engage in the campaign on social media and spread the message that we need immediate support from the Canadian government.

In collaboration with the letter writing campaign, CFA also issued a news release on April 30, 2020 asking the Federal Government to provide an Agriculture and Agri-Food Emergency Fund of \$2.6 billion to help maintain food security in Canada in response to COVID-19.

Together, we can secure Canada's robust and dynamic food supply during this pandemic.
