36th Annual Tomato Disease Workshop

Please join us **Tuesday, November 2, 2021** at **12 pm EST** for a free virtual Zoom meeting to share ongoing research, discuss new disease management strategies and address new and emerging issues pertaining to tomato diseases.

Who Should Attend?

Researchers and students, tomato breeders, extension educators, crop consultants, tomato producers, processors, industry representatives, government regulators and anyone interested in the successful production of field or greenhouse tomatoes.
